Subject : Outcome of IKB Kip assessment  
Your reference : 8882426 / VEB8882426

Dear Sir, Madam,

On 16-02-2018 your company was visited by a Kiwa VERIN inspector for an IKB inspection. Kiwa VERIN has now received the inspection findings from the auditor and has assessed them.

The assessment indicates that your company is fully compliant with the IKB Kip General Terms and Conditions and associated regulations. Your company has been issued with an IKB certificate and your KIP number is now included in the IKB Kip register. The IKB certificate is enclosed.

Based on the inspection findings, your company has been granted IKB status 1. The certificate is valid until the date shown on it. You must make sure that an inspection takes place several weeks before this date. Kiwa VERIN will contact you before the date. This ensures that your IKB certification continues uninterrupted.

If you have any questions about the above assessment, you can contact the undersigned ([certificatie@kiwaverin.nl](mailto:certificatie@kiwaverin.nl) or +31 (0)88-9984310).

With kind regards,

Roosmarijn Overweg  
Kiwa VERIN

Annex: IKB Kip Certificate

Norm

CL56BB02

Omschrijving

All hatching eggs received on site originate from suppliers certified in the context of one of the IKB Egg or IKB Chicken or Belplume programmes, or have been granted dispensation by the scheme manager. Supply from non-IKB recognised (great)grandparent animal companies is not permitted, unless said company can clearly indicate its AI, Ms, Mg and Salmonella status.

*During the inspection it was established that not all suppliers originate from certified IKB Chicken, IKB Egg or Belplume suppliers. To resolve this shortcoming you need to prove to Kiwa VERIN that all suppliers originate from certified IKB Chicken, IKB Egg or Belplume suppliers. In the meantime, Kiwa VERIN has conformed that the suppliers are certified for IKB. Hereby this shortcoming is resolved.*

CL56BB06

**The company conducts Salmonella tests at the designated times.**

*The company conducts Salmonella tests at the designated times. Designated times; each hatcher and each hatching moment. In meanwhile Kiwa VERIN has received the result of the Salmonella tests. Herewith this shortcoming is resolved.*
